LoadSpring Cloud Platform:
The world's smartest cloud solution.

ONE CLOUD PLATFORM. INFINITE BUSINESS SOLUTIONS.

Our cloud specialists want you to have complete command and control over every project, every software application, every upgrade. So we created **LoadSpring Cloud Platform** to improve your project estimating, scheduling, engineering, execution, and business intelligence—all from one intuitive dashboard.
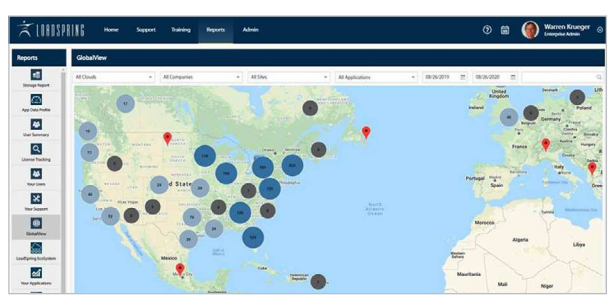

OUR ONE OF A KIND. ALL-IN-ONE.

Only LoadSpring Cloud Platform consolidates all these processes and more:

- One-stop, centralized cloud access to ALL your project software, teams, and data
- Effortless integrations, software upgrades, and license management
- Reduced downtime with guaranteed SLAs
- Advanced performance monitoring for greater software adoption

SOFTWARE MANAGEMENT MADE SIMPLE

Time-saving tools for administrators:

- Immediate and painless addition/deletion/provisioning of users
- Automatic software maintenance and upgrades—you control the timing, we do the work
- GlobalView usage reporting shows who adopts new software—and where
- Better software management = better licensing, usage, reporting and ROI
- CIO dashboarding to view support, performance, uptime, security and software adoption
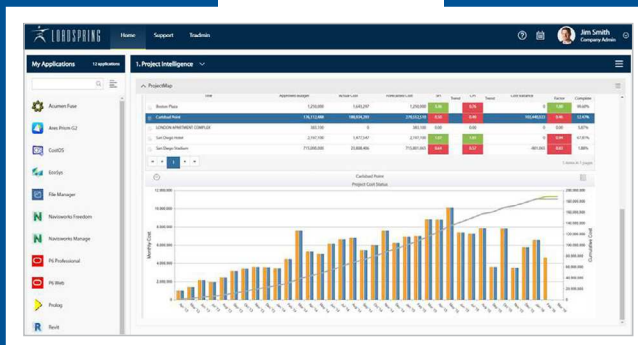

ANALYTICS, DEMYSTIFIED

Our **LoadSpring*Insight*** business intelligence tools **are** built right into LoadSpring Cloud Platform. Instant project analysis when you want it, how you want it:

- KPIs and S-curves are generated automatically
- Data lake development for faster analysis and business innovation support

EVEN OUR SECURITY MEASURES HAVE SECURITY MEASURES

Don't be cyber-bullied, hacked, or invaded. Our proactive security has NEVER been compromised, keeping your software, data, and intelligence out of the hands of bad guys:

- Our built-in, eight-stage security is on guard 24/7/365
- Zero Trust protocols run automatically in the background
- Tested, trusted disaster recovery in record time

GOT COMPLEX SUPPORT ISSUES? GET THIS

Even with the best software and cloud hosting, there are questions that only true cloud experts can answer. Our legendary teams support your internal IT and admins:

- Living, breathing support experts respond within 15 minutes, 24/7/365
- Essential support tools are built into LoadSpring Cloud Platform
- Empower your admins to track support cases, usage, security and response times

MILLION-DOLLAR TRAINING, ZERO-DOLLAR TUITION

Our virtual classroom, **LoadSpring*Academy***, is not only free but engineered by design in LoadSpring Cloud Platform.

- LoadSpring*Academy* increases software adoption and user productivity
- Use our proven self-learning videos and quizzes—or upload your own

Empower yourself to do more, get more from the Cloud

WHAT WE DO AND WHY YOU SHOULD CARE

Our perfection-obsessed cloud and business experts live to bring you fast, simple, secure access to all your cloud-based projects, apps, and data. Our technologies and know-how are proven to increase project productivity and ROI. No wonder LoadSpring is the leader in custom-managed project lifecycle software solutions. Let us accelerate your digital transformation and keep your projects on track and on the money.

MORE POWER TO YOU—WAY MORE

Our philosophy—"Empowering Innovation"—describes how we solve your most important cloud challenges, freeing you up to focus on your business innovations, BI, and best practices. You'll be amazed at what you and our managed cloud solutions can accomplish—all through a single cloud platform.

LOADSPRING CLOUD PLATFORM

This value-adding empowerment tool serves as your gateway to 200+ cloud-based project apps, giving you total project command and control. LoadSpring Cloud Platform maximizes your project confidence in estimating, scheduling, geospatial, CAD/BIM, business intelligence, and more—all from a single dashboard.

SPEED-OF-LIGHT APP ACQUISITION & DEPLOYMENT

No one offers an easier, faster way to research, purchase, and deploy best-of-breed project software than LoadSpringMarketplace.com. Get everything you need to boost project efficiency and margins.

GET MORE OF YOU WHAT YOU NEED, DO MORE OF WHAT YOU WANT

You don't ask much, right? Just flawless software performance, reduced costs, greater project intelligence, revenue growth, uncompromising security, and 5-star support. Our unmatched cloud expertise and innovative technologies cover it all, including:

- Our centralized platform **delivers all the software you need**—plus expert teams to support them
- One flat monthly fee—**no capital expenditures** for infrastructure or maintenance
- **Synchronized data** for all your teams
- **Data lake development** streamlines analytics
- Simple **license usage/reporting** maximizes software investment and simplifies IT rationalization
- Expert **data protection and backup** reduces risk and costs
- **Real-time global support**
- **99.9% uptime** prevents costly delays
- **Easy command and control** of software versions, users, licenses and upgrades

OUR NUMBERS SPEAK (LOUDLY) FOR THEMSELVES

- **48 out of 50** top global AEC firms rely on LoadSpring
- Our cloud environment deployment is **75% faster** and **50% cheaper** than in-house IT
- Tests show that LoadSpring Cloud Platform is **60% faster** than generic clouds
- Project delivery to existing environments in just hours, not days
- **We manage more than $400 billion in capital projects**
- **95%** of our clients are repeat customers

EXPECT MORE FROM US. AND GET IT.

LoadSpring streamlines everything—digital transformation, software provisioning, fast deployment, license compliance, analytics, security, maintenance, and support. Get more of what your internal IT, your admins, and you... need.
