

Embrace those control issues

Margin management for control freaks

They say project decision-makers can be overly perfectionistic, but hey—it's all in the name of improving margins, efficiency and success. Without the right Project Management software, Cloud access and Support, your projects may be a lot less than perfect.

Get back the control you long for.

Problem: Project control issues

Lack of essential tools leads to an overall **lack of control**

Outdated processes drag down margins and reduce ROI

In-house solutions can fall short of scheduling and cost goals

Solution: Leverage LOADSPRING's expertise

LoadSpring*Insight's* integrated management tools provide scheduling and cost data for better executive decisions

Our 20 years of PC innovation can boost profitability through improved user adoption

Always ready with 24/7/365 support, best-of-breed software and automatic version updates

More than **4,000** companies and **100,000+** users worldwide look to LOADSPRING™ for **zillions** of Project Management software solutions.

Get back in control. Evolving your PC solutions can lead to better Cloud connectivity, faster app adoption, more project uptime, higher ROI and enhanced project delivery.

Embrace those control issues

Empower your inner perfectionist

They say project decision-makers can be overly perfectionistic, but hey—it's all in the name of improving margins, efficiency and success. Without the right Project Management software, Cloud access and Support, your projects may be a lot less than perfect.

Get back the control you long for.

Problem: Loss of project control

Using the same old tools means getting the same poor results

Unwillingness to change can limit new business opportunities

Slow project activation can cause decreased competitiveness and reduce ROI

Solutions: Better support = greater control

LOADSPRING™ offers easy access to the right tools, saving hundreds of team hours

Enhanced control of multiple apps, versions and upgrades

Quicker app adoption means more responsive client support

User adoption of analytics applications is down **20 percent** this year¹ despite the wider availability of such tools. LOADSPRING makes it **1 zillion** times easier for users to switch from their usual apps to best-of-breed analytics tools.

Get back in control. Evolving your PC solutions can lead to better Cloud connectivity, faster app adoption, more project uptime, higher ROI, and enhanced project delivery.

Embrace those control issues

Speed up the process

They say project decision-makers can be overly perfectionistic, but hey—it's all in the name of improving margins, efficiency and success. Without the right Project Management software, Cloud access and Support, your projects may be a lot less than perfect.

Get back the control you long for.

Problem: Control gets out of control

Delays in new app adoption can limit project success and decrease ROI

Old data sources lead to erroneous info and less-informed business decisions

Slow consolidation of data increases the risk of failure

Solutions: Make every nanosecond count

- The **LOADSPRING™ CLOUD PLATFORM** provides quick, easy and secure access to project management tools
- **Combining apps and data in the Cloud** means greater speed, connectivity and data accuracy
- **Speedier user acceptance** of new applications

Fast Fact

LOADSPRING provides data access up to **62% faster**¹ than other leading Cloud hosting services such as Amazon AWS and Microsoft Azure.

Get back in control. Evolving your PC solutions can lead to better Cloud connectivity, faster app adoption, more project uptime, higher ROI and enhanced project delivery.

Embrace those control issues

Control your technology (and destiny)

They say project decision-makers can be overly perfectionistic, but hey—it's all in the name of improving margins, efficiency and success. Without the right Project Management software, Cloud access and Support, your projects may be a lot less than perfect.

Get back the control you long for.

Problem: Tech control issues

Second-best technology = a **first-class mistake**

Postponing a move to a Cloud-based model **risks non-compliance** with project owner requirements

Old SaaS strategies lead to non-interoperable solutions **and lost control over upgrades**

Continued use of old tech jeopardizes performance and support

Solutions: Better Cloud and app solutions

LOADSPRING technologies **give automatic control** over PC software upgrades

We **support multi-version** apps and keep you compliant

Our leading edge Cloud service is **customized to your business**. We know your industry and application needs

LOADSPRING's **20 years** of Project Management app expertise makes us your **#1 choice** in Cloud solutions, offering peak performance and improved app adoption.

Get back in control. Evolving your PC solutions can lead to better Cloud connectivity, faster app adoption, more project uptime, higher ROI and enhanced project delivery.
