LoadSpring INSIGHTS™

The AI-Powered Solution for Improved Project Intelligence

THE ONLY DATA TRANSFORMATION SOLUTION BUILT SPECIFICALLY FOR PROJECT CONTROLS & MANAGEMENT

Unlike generic data cleansing, unification, and business intelligence tools, LoadSpring INSIGHTS™ is purpose-built for project controls and project management teams, transforming chaotic, fragmented data into instant, actionable intelligence. Powered by advanced AI and a Large Language Model (LLM) approach, INSIGHTS is a complete data transformation solution that seamlessly integrates across diverse environments and disparate applications, transforming disjointed, dirty data into clear, strategic information.

NOT JUST ANOTHER BI TOOL- BUILT FOR PROJECT LEADERS

Traditional data transformation and BI analytical tools were designed for analysts and data scientists, not project professionals—making them rigid, generic, and slow. LoadSpring INSIGHTS is different. It adapts to your unique applications, specific workflows, and speaks your company's unique language -- delivering real-time project insights so you can act now, not later.

AI THAT UNDERSTANDS YOUR PROJECT DATA

Generic AI tools struggle with the complexities of project data and terminology, but LoadSpring INSIGHTS was purpose-built with the most advanced LLM technology and industry-specific intelligence for project management and controls teams.

THE AI POWER EVERY PROJECT NEEDS

Seamlessly integrates across non-related project applications whether on-prem, in the cloud, or in hybrid environments.
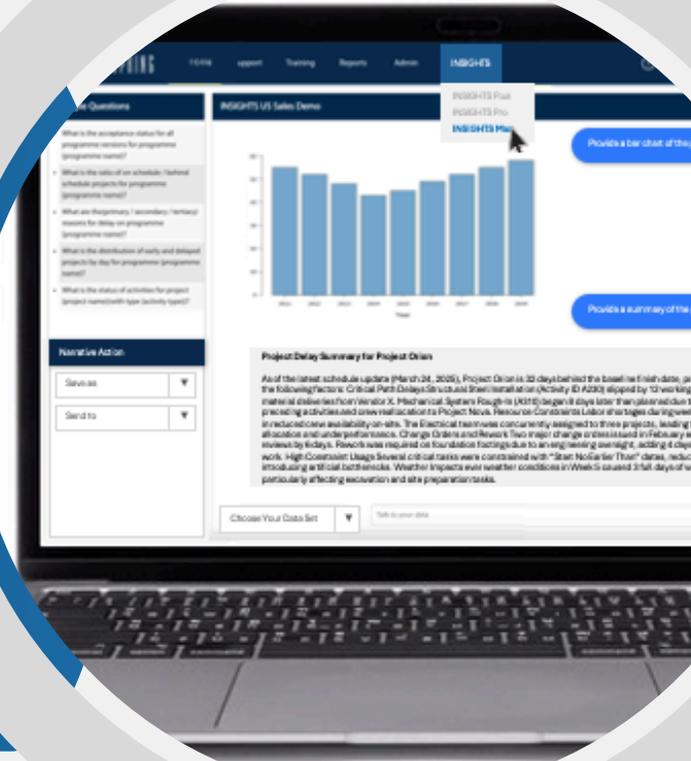

Automatically cleans, normalizes, aligns, unifies, and interprets project data, eliminating manual processes and time-consuming hard coding.

Delivers near instant insights and actionable intelligence through natural language chat, visual reports, interactive dashboards, and AI-generated narratives.

LoadSpring INSIGHTS Features:

Tailored Intelligence for Every Project

TAILORED FOR YOUR BUSINESS

Unlike generic AI solutions, LoadSpring INSIGHTS understands your organization's language, industry-specific terms, and data structure, ensuring the insights it provides are relevant and actionable for your team.

INTERROGATE YOUR DATA WITH ELSIE™

Elsie, our INSIGHTS AI-Agent, uses Natural Query Language (NQL) to let you ask complex project questions in your company's exact terminology—and get precise, relevant answers instantly, without requiring analytical expertise.

FASTER, SMARTER PROJECT DECISIONS

LoadSpring INSIGHTS delivers near instant insights, helping teams quickly identify risks, optimize schedules, and improve performance—eliminating delays caused by manual analysis.

FLEXIBLE OPTIONS TO FIT YOUR NEEDS

Customers can choose data cleaning, a domain-specific LLM, or both. Whether transforming your data or unlocking actionable insights, INSIGHTS provides the flexibility to address your specific project requirements.
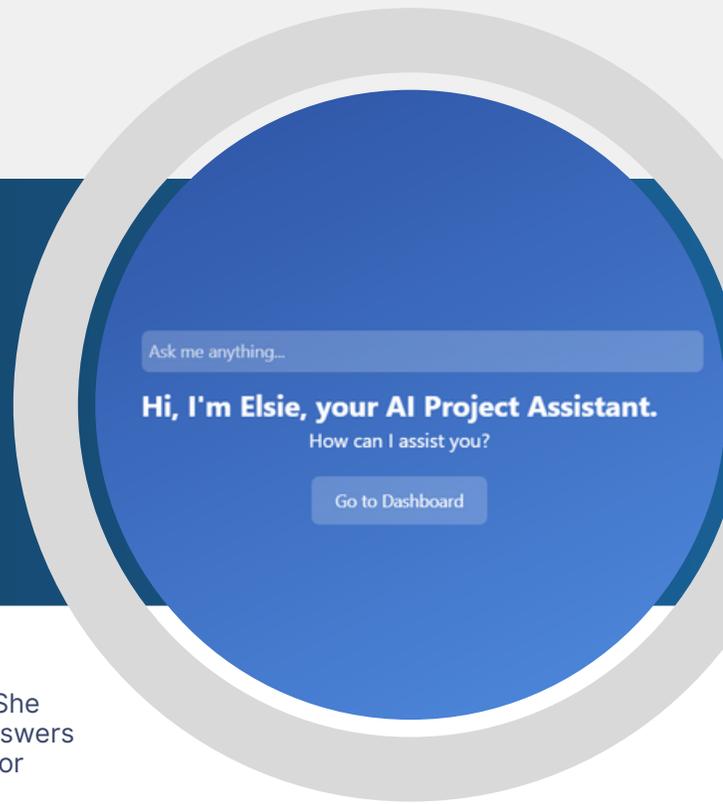

END-TO-END DATA TRANSFORMATION

Securely hosts, cleans, and normalizes project data across any application, ensuring accuracy and reliability, and making your data ready to drive decisions with confidence.

AGENTIC AI TRANSLATION ENGINE

Automatically standardizes and interprets disparate project data, eliminating manual data translation and interpretation efforts, hard coding, and reducing human error—while preserving your company's unique data context for precision.

Meet Elsie™

Your Always-On, AI-Powered Assistant

Ask me anything...

Hi, I'm Elsie, your AI Project Assistant.
How can I assist you?

Go to Dashboard

WHO IS ELSIE?

Elsie is your AI-powered project assistant — built into INSIGHTS. She speaks your language, knows your data, and delivers real-time answers with clear visuals and actionable summaries. It's like having a senior analyst who never sleeps—and never sends you back to Excel.

WHAT CAN ELSIE DO?

Answer in Plain English. Ask questions like "Which projects are behind schedule?" or "What's the SPI for LC00501?"—and get instant, clear answers.

Visualize What Matters. Elsie returns tables, charts, and graphs—not just text—to make insights obvious.

Drill Down with Ease. Go from high-level KPIs to granular views: activities, resources, constraints, float, and more.

Pin Daily Questions. Set up recurring questions (e.g., "Which projects are slipping?") and track answers over time with dynamic dashboard tiles.

Generate Instant Reports. Create project summaries on the fly—from 6-page executive reports to 15-page PM deep dives—all tailored to your organization.

Show Her Logic. Elsie gives you the SQL code right next to her answer, so you have confidence Elsie is retrieving data accurately.

WHY ELSIE BEATS THE OLD WAY

Traditional Reporting	With Elsie
Weeks to build reports	Real-time answers
Rigid dashboards	Ad-hoc questions anytime
Static KPIs	Dynamic, drillable insights
Generic data language	Knows your acronyms & terms
IT assistance needed	No technical skills needed

WHAT MAKES ELSIE DIFFERENT

- Expertise in project data

- Understands your acronyms, structure, and metrics

- Custom narrative KPIs built for your business

- Transparent SQL view for confident reporting
